Ing. C. M. Santander, Mgr.

Dear Sirs:-

By this time, the Martin equipment is on the way, and arrival in Mexico should be made in the near future.

If there is anything further that you desire for future business, please command. You no doubt have received the photographs, electros for your catalogue, etc. etc.

In this connection, you will be wanting a complete line. As you know, I act for your prominent manufacturers. Please note attached inquiry to Royal. Another catalogue and price-list is in the mail. Mr. Neri should of course pay list price, the discount is for your account.

The Royal line, by the way, is one of the most complete, and due to their large capacity, their prices are very low and should be attractive. The prices of course are unboxed fob factory.

How much of Mexico do you intend to cover. Please advise me because I want to send you such inquiries as my people receive.

From the other catalogues, the Cutaway Co., does considerable business in your country. Messinger likewise on corn shellers. We just shipped Carlos Hering y Cia. of Guadalajara six No. 66 machines.

So kindly look over all of these catalogues, and let me know whether any of these other lines are of interest.

With kindest regards, and awaiting your further commands,

Yours very truly,

Henry R Jahn, 7 Water St, NYCity
