LOS ANGELES, CALIF., July 7th, 1920

Mr. Joe P. Polin

Nogales Arizona

Dear Joe ---

We have gotten ~~to~~ a proposition to make some quick money if you can handle that end .

There is an outfit in Lower California that wants to import from China One thousand Chinamen to work in the cotton fields and just before the recent trouble started in Mexico they had a permit from Cantu to import them but the Carranza Government asked the U. S. Government in Washington to not allow them to come through the U. S. without a consent of the Mexican Central Government, so the trouble coming on the deal was never made .

Now what we want is the ~~perm~~it from Mexico City (proper authorities) to take these Chinamen into Lower Calif, and we can get the permit from Washington all right. This will be a good thing for Lower Calif. as it will greatly assit in getting into cultivation a large area of land as labor is short in that section .

These people are ready to put up the money to us ~~for~~ the permit if we say we can get it before we start in .We can get at least twenty five thousand dollars cash. Now Joe on receipt of this letter wire me if this can be done and I will see these parties and wire you to come here and we will have them deposit the money in the bank here .

If you can do this wire me tomorrow as follows :

Can arrange as per your letter and come when you are ready.

We hope that you can arrange this matter and will wire us tomorrow , I know you can do it .

Yours very truly

A. Leonard
