Hon. P. Calles, Ex-president,
Mexico City, Mexico.

My Dear Sir:-

I take the liberty to address you to offer an apology for a criticism of your administration printed in the number four Exponent, which I see now by the recent press reports of certain reforms that have been carried out by your successor, and which I feel had their origin with your administration, compels me to admit in the interest of fairness and truth, that such criticism was unjustified.

I gladly withdraw the remarks about Mexico and will in a forth coming number make the amende honorable by printing the withdrawal and an article laudatory of the progressiveness of your wonderful country after it has thrown off the papal yoke for which you are entitled to the credit for the initiative steps. Hearty congratulations! Wishing you a prosperous and happy New Year, I beg to remain,

Yours sincerely,

E. Mason Roberts

Le ofrece una satisfacción por una crítica que publicó en su revista religiosa "El Exponente", pues ve que su sucesor ha implantado reformas que indudablemente tuvieron origen en la Administración de Ud. En el próximo número hará una explicación sobre el particular y hablará sobre el progreso de "su maravilloso país", después de haberle quitado el yugo papal. Lo felicita con motivo del Nuevo Año.
