

April 27, 1932.

Messrs. Russell Electric Co.,
Chicago, Ill., U.S.A.

Dear Sirs:

We are using for some time your heaters for incubators and brooders, as we manufacture them here. These heaters we buy them from another concern from the States but they charge us very high prices for same. We use also Westinghouse heaters, yet we think the ones manufactured at your factory give better results. We wrote you on a former date, but we fear our letter did not reach you as we have not on hand your adress. Thus we are mailing this by the conduct of a friend of your city, who will find out your adress and mail the present letter.

We beg you to send us your general catalog, price list and to let us know the discounts we may get on orders placed with you.

Hoping to hear from you at your earliest convenience, we beg to remain,

Yours very truly,

GRANJA AVICOLA "SANTA BARBARA"
