

HOW TO USE YOUR

GENERAL  ELECTRIC

Refrigerator

Congratulations!

You have made a wise decision in selecting a General Electric Refrigerator. We believe that, dollar for dollar, you have purchased the finest refrigerator that money can buy.

Its mechanism has been precision manufactured and is pressure lubricated to assure the purchaser of years of quiet, efficient, and economical operation. The interior arrangement of the all-steel cabinet has been planned from suggestions of hundreds of home economists and homemakers the country over.

We are confident that this new electric servant will serve you faithfully and will justify your good judgment in having made this choice.

EDWINA NOLAN, MGR.
HOME SERVICE SECTION
G-E HOME APPLIANCE INSTITUTE
BRIDGEPORT, CONN.

IMPORTANT

The enclosed Warranty and Replacement Contract is for your protection. Read it carefully.

To assure full coverage on your refrigerator under the terms of the General Electric warranty and replacement contract, fill out and MAIL IMMEDIATELY the card addressed to the General Electric Company which you will find attached to the Super-Freezer.

Get Acquainted With Your New G-E Refrigerator

Foods That Require Refrigeration

Following is a list of commonly used foods that should be stored in your refrigerator for proper preservation.

FRESH MEATS of all kinds.

SMOKED MEATS such as bacon, ham, beef, and fish.

FRESH VEGETABLES such as lettuce, celery, radishes, shelled peas, cut string beans, watercress, endive, romaine, cucumbers, tomatoes, peppers, etc.

DAIRY PRODUCTS such as milk, cream, butter, cheese, and eggs.

FROZEN FOODS of all kinds.

LEFTOVER FOODS such as chopped and ground meats, vegetables, fruits, cream gravies, and casserole dishes.

FRESH FRUITS such as lemons, oranges, limes, grapefruit, berries, watermelon, etc.

CANNED AND BOTTLED FOODS.

Canned and bottled foods *which have been opened* should be kept in the refrigerator. It is not necessary to remove from can or bottle.

After they have been opened, foods such as chili sauce, mustard, salad dressings, and sandwich spreads should be kept in the refrigerator.

MISCELLANEOUS FOODS. Miscellaneous foods such as babies' formulas, opened soups, white sauce, batters, prepared biscuit mixes, refrigerator cookies, doughs, salads, chilled desserts, and refrigerator cakes and pies should be kept in the refrigerator.

Bread may be stored in the refrigerator to prevent molding during hot weather. Keep it wrapped in waxed paper or a towel.

Foods That Do Not Require Refrigeration

Dry vegetables such as potatoes, rutabagas, turnips, squash, and dry onions keep well at room temperatures and should not be allowed to take up space in your refrigerator. The same is true, of course, of unopened canned goods. **DO NOT KEEP BANANAS IN THE REFRIGERATOR.** Cold removes their flavor and retards their ripening.

Where To Place Foods In Your Refrigerator

HOW TO STORE FRUITS AND VEGETABLES

To retain the firm texture and garden freshness of vegetables and fruits, wash them and store them in the vegetable drawers. Shake the leafy vegetables several times after washing to remove excess water and place them in the vegetable drawer moist. It is advisable to remove all unnecessary tops and leaves before storing in the vegetable drawers to save space.

**Store Fresh Fruits and Vegetables
in Glass-covered Drawers**

Tomatoes will keep better if stored uncovered on one of the shelves. Fruits such as oranges and lemons may also be stored on the shelves of your refrigerator if the fruit drawer is filled to capacity.

Berries keep best if stored unwashed in a shallow dish or pie plate on an open shelf.

**Drawers Can Be Stacked to Make
Room for Large Melon**

Extremely high humidity will cause mold growth on berries. Do not wash or hull berries before storing as the juices will be lost, and the berries will become mushy.

Cantaloupe, pineapple, and other fruits with strong flavors should be tightly wrapped in waxed paper or placed in an oiled silk container which you can obtain from your dealer.

Bananas should not be kept in the refrigerator as cold removes their flavor and retards ripening.

HOW TO STORE MILK AND CREAM

Place milk bottles and other tall containers on the top shelf. In this location milk is stored right next to the Super-Freezer and will remain fresh and sweet for days. In most models this milk compartment is large enough to accommodate the economical gallon containers.

Store Milk and Cream on Top Shelf

The length of time milk or cream can be kept depends on its freshness when delivered, the length of time it is left unrefrigerated, and the number of times it is taken from the refrigerator and left out in room temperatures. You can not always tell by the taste or odor of milk whether or not it is fit for use, so care should be taken to keep the milk refrigerated at all times. Be sure to wipe the bottle and cap clean with a damp cloth before storing milk in the refrigerator. Waxed cartons and metal or plastic tops do not affect the flavor of the milk or cream.

HOW TO STORE BUTTER

If butter is left out in room temperatures longer than necessary it may become rancid. Therefore, it should be kept in the refrigerator except when it is actually in use. To preserve the sweetness of the butter keep it covered in the refrigerator.

For table usage, butter should be stored at approximately 60 degrees Fahrenheit. At lower temperatures butter is too hard to spread well. Therefore, models B7-41, PB7-41, B8-41, and PB8-41 are equipped with a special Butter Conditioner which will accommodate a pound of butter and keep it at the desired degree of softness. By adjusting the small control knob located on the right-hand side of the Butter Conditioner, you can vary the softness of the butter. You can store surplus butter which is not being used daily on one of the shelves in the refrigerator until the daily supply in the Butter Conditioner is used up.

**Store Butter in the Butter Conditioner to
Keep it at the Proper Temperature
for Easy Spreading**

This feature not only keeps the butter in good condition for table use, but you will also find it handy for cooking purposes, especially when you are mixing the butter with other ingredients.

The Butter Conditioner is available as an accessory at slight additional cost for some models.

Detailed operating instructions are given on the instruction sheet inside Butter Conditioner. Insert the instruction sheet in this booklet for safekeeping.

HOW TO STORE FRESH MEATS AND FISH

**Store Fresh Meats in the Cold
Storage Compartment**

The Cold Storage Compartment automatically maintains the high humidity necessary for fresh meats. Unwrap the meat and place it in the stainless steel rack in the Compartment; this permits circulation of cold humid air around the meat. Meats in the Cold Storage Compartment should not be wrapped or covered but wax paper should be used to separate layers of meat. For high standing roasts the cover may be inverted to provide additional height within the Compartment. Fresh fish should be wrapped in wax paper and stored in the cover of the Cold Storage Compartment.

**Store Fresh Fish in the Inverted Cover
of the Cold Storage Compartment**

In models equipped with a chiller tray instead of a Cold Storage Compartment, place the meat in the chiller tray and cover it lightly with wax paper.

Ground meat is exceptionally perishable and should be stored in an ice tray or on a dish in the Super-Freezer, if you desire to keep it more than a day.

HOW TO STORE FROZEN FOODS

Store frozen foods in the lower part of the Super-Freezer until they are to be used. Some models have a removable shelf in the Super-Freezer which you can remove to provide greater storage space for frozen foods. Do not store frozen foods on the removable shelf as this shelf does not maintain the extreme low temperature of the others.

Store Frozen Foods in Super-Freezer

As soon as frozen foods are delivered to the home, they should be placed in the Super-Freezer immediately, and kept there until you are ready to use them. If the foods are frozen solidly and not allowed to defrost they will keep for quite some time. *Remember to keep frozen foods frozen.*

HOW TO STORE LEFTOVER FOODS

Except for the special compartments previously mentioned, the entire remaining space is designed for storage of leftovers and other general foods, such as canned goods, small bottles for chilling, and fruits when vegetable drawers are full. All moist leftover foods should be stored in covered containers. Models B8-41 and PB8-41 have a sliding wire utility basket for convenient storage of small packaged and bottled foods. The small upper shelf located at the side of the Super-Freezer on some models is also convenient for storage of small articles.

Store Leftovers in Covered Dishes

HOW TO STORE NON-REFRIGERATED GOODS

For your convenience in storing such items as bottled beverages, potatoes, onions, and other foods not requiring refrigeration, a non-refrigerated storage drawer is provided in many models at the lower part of the cabinet. On Models PB-12 and PB-16 a small opening at the lower front corner of the drawer permits you to sweep any refuse out of the drawer and onto a dustpan. On other models equipped with the non-refrigerated drawer, remove the large chrome button from the inside bottom of the drawer to allow refuse to be swept out.

Dry-storage Drawer—Not Refrigerated

To remove this drawer on Models PB-12 and PB-16 so that you may clean underneath the refrigerator, remove the screw from the inside rear corner of the drawer. You can then swing the drawer clear around out of the cabinet. On other

models, you remove the drawer by pulling it out as far as it will come and then lifting slightly and pulling the drawer completely out of the cabinet.

HOW TO ADJUST THE TEMPERATURE

Various cabinet temperatures are available by merely adjusting the control dial to any of the numbered positions. The refrigerator may be operated at whatever control position best suits your needs. In the summer time in moderate climates a satisfactory normal setting for most users is between No. 4 and No. 6. To obtain colder temperatures, turn the control to a higher setting.

On models B7-41, PB7-41, B8-41, PB8-41 a special control automatically maintains a constant temperature, winter and summer, with the control set at any one position. On all other models, during the cooler months a warmer control setting may be desirable while in extremely hot weather the control should be set at a colder position.

HOW TO FREEZE ICE CUBES AND DESSERTS

Ice cubes may be frozen on any shelf in the Super-Freezer except the removable shelf in models so equipped. However, trays of ice cubes may be stored on the removable shelf. The lower part of the Super-Freezer is the coldest and should be used for fast freezing of ice cubes or frozen desserts.

To obtain maximum freezing speed, wet the freezer surface on which the ice tray is to be placed and turn the control knob to the coldest position (highest number on the dial). *Be sure to turn control back to normal position after freezing is completed.*

HOW TO REMOVE ICE CUBES

You can easily loosen frozen-in ice trays by inserting the flat end of the releasing lever provided with each refrigerator into one of the recesses at the bottom of the tray. The tray may then be readily pried loose.

With this same lever you can also remove two cubes or a tray full in a matter of seconds from the G-E Quick Tray. Place the curve of the lever so that it straddles the center line and is inserted well forward under the lip of each cube divider and press. This releases two cubes. Additional cubes may be released by repeating the operation on the following dividers. *Cubes at the slanted or rear end of the tray should be removed first.*

Ice Cubes Can Easily be Removed with the Releasing Lever

When you place the dividers in the tray, be sure that the slanted end of the dividers is placed at the rear or slanted end of the tray. You will notice that one end of the ice tray is stamped "Front End." When you place the Quick Tray in the Super-Freezer, place the front end of the tray at the front of the Super-Freezer. This places the recesses at the bottom of the tray accessible to the releasing lever used in breaking the frozen contact between the tray and the Super-Freezer.

HOW TO STORE ICE CUBES

You can store a supply of ice cubes in the chiller tray or in the cover of the Cold Storage Compartment while additional cubes are being frozen in the Super-Freezer. You can also use the lower part of the Cold Storage Compartment to store an extra large supply of ice cubes if desired. Remove the cover when you store ice cubes in the lower part of the Cold Storage Compartment to provide lower temperature.

HOW TO REARRANGE THE INTERIOR

VEGETABLE DRAWERS. In the models having two vegetable drawers (excepting Models PB-12 and PB-16), you can stack either drawer above the other to provide storage space for bulky articles, such as watermelons (see picture, page 4). To stack the drawers, remove one of them and fit the two holes at the back of the glass cover frame to the two studs that protrude from the rear wall of the cabinet just below the wire shelf. The hook at the front of the cover can then be placed into the loop built into the shelf support. (If the wire shelf is adjustable in height, it must be placed in its upper position.) You can then slide this vegetable drawer into place above the other drawer.

ADJUSTABLE SHELF HEIGHT. In the models equipped with a sliding shelf (except models PB-12 and PB-16), you can adjust the sliding shelves to two

Release Shelf Stops to Remove Shelf

different heights. To adjust the height, pull the shelf out as far as it will come and then release the two shelf stops. On some models the stops located at each of the rear corners, of the shelf, are released by pushing the two buttons toward the center of the shelf as shown in the illustration. On other models the stops are released by flipping them over towards the center of the shelf. The shelf is then free to be removed and can be inserted at the desired height. Be sure to return the stops to their original positions after you have slid the shelf back into the cabinet.

Removable tip-top shelf for storing small packaged foods

The tip-top part shelf located just to the left of the Super-Freezer on some models, is a handy storage place for packaged cheeses, small bottled and canned foods, etc. Its shelf height can be adjusted to make room for tall bottles below it, and it can be removed entirely, if desired.

In most models the bottom shelf is made in two parts so you can remove one-half to store large bulky containers or foods.

Various Arrangements of Cold Storage Compartment and Cover

Position No. 1 above shows the usual arrangement of the Cold Storage Compartment and tray-top cover. For larger quantities or bulky food the cover may be inverted to give additional height as shown in position No. 2. If no meat is being stored the compartment proper may be removed entirely, providing more space on the shelf below. In this case the tray-cover may be placed in either the upper or lower position (No. 3 and No. 4). For storing desserts in parfait glasses, the cover may be removed entirely (position No. 5).

For rapid chilling of bottled beverages or other foods, the Cold Storage Compartment can be completely removed from the refrigerator to provide a large storage space directly under the Super-Freezer.

HOW TO DEFOST

The word "defrost" means to remove the frost which gradually accumulates on the Super-Freezer of the refrigerator.

When the Layer of Frost Is Built Out Even with the Tel-A-Frost Indicator, It Is Time to Defrost

For most efficient and economical operation of your refrigerator, the coating of frost that collects on the freezing chamber should be removed whenever it becomes $\frac{1}{4}$ to $\frac{3}{8}$ inch thick. To gauge the frost thickness for you, all models except B-3, LB-3, and BY-4 are provided with a small red Tel-A-Frost Indicator located on the left side of the Super-Freezer. As soon as the layer of frost is built out even with the Tel-A-Frost Indicator, it is time to defrost.

To defrost your refrigerator:

1. Remove ice trays and all foods from chiller tray. Replace the chiller tray directly under the Super-Freezer to catch the water as the frost melts. If your refrigerator has a Cold Storage Compartment, the cover may be used for catching the water and you need not remove meats from the compartment proper.
2. Turn the control knob to "Defrost" position.
3. Keep the door of the refrigerator closed. Moderate refrigeration will continue during defrosting.

Turn Control to "Defrost" or "Off" Position, Depending On the Method Used

Fill Ice Trays with Warm Water to Defrost More Quickly

An alternate method which requires more attention but accomplishes defrosting more quickly is as follows:

1. Turn the control knob to "Off."
2. Place ice trays filled with warm (not boiling) water in Super-Freezer.

Whichever method is used, after the frost has melted off, empty the glass tray and wipe off the Super-Freezer with a damp cloth or, preferably, clean the complete interior of the refrigerator, following the instructions on page 10, "How to Clean Your Refrigerator."

Refill ice trays with fresh water. Wash the glass tray but *take great care not to use hot water as the quick change in temperature may cause the glass to crack.* Return the control knob to normal setting.

Never use a knife or other sharp instrument of any kind to assist in removing the frost.

HOW TO CLEAN YOUR REFRIGERATOR

INTERIOR. At the completion of defrosting, it is recommended that the inside surfaces of the cabinet and the Super-Freezer, inside and outside, be cleaned using a solution of warm water and baking soda, or soap and water followed by a baking-soda solution. Baking soda is one of the best mediums for keeping the interior of the refrigerator "sweet" and clean as it tends to counteract residue food odors. Use one tablespoon of baking soda to four quarts of water. Cleaning agents having an odor should not be used. After cleaning, dry the interior by wiping with a clean, dry cloth.

EXTERIOR. For cleaning the outside surfaces of the cabinet, an especially prepared General Electric Liquid Wax can be obtained from your dealer. This preparation not only protects and cleans the surface thoroughly, but adds luster to your cabinet. The liquid wax is not necessary for merely cleaning, however, as a mild solution of soap and water will satisfactorily remove surface soil. *Do not use cleansing powders or strong alkali soaps on the exterior.* The liquid wax is not necessary for cabinets having a porcelain exterior.

FREEZING TRAYS. Use merely soap and water. *Never use a metal sponge or an abrasive cleaning powder in cleaning these trays and never use boiling water.*

GLASS ACCESSORIES. Use soap and lukewarm water. *Never use hot water as the rapid change in temperature may cause the glass to crack.*

HOW TO REACTIVATE THE AIR FILTER

Located between the vegetable and fruit drawers of seven and eight cubic-foot deluxe models and on the rear wall of twelve and sixteen cubic-foot models, is an Air Filter. This filter acts as an air freshener which absorbs food odors and assists in preventing the transfer of these odors and flavors from one food to another.

The Air Filter Absorbs Food Odors

After several months of use the activated carbon within the Air Filter may become so saturated with food odors that it is less effective. The carbon may be reactivated by placing the Air Filter in an oven kept at a temperature of 375-425 degrees Fahrenheit for about 30 minutes. Leave the oven door open slightly during this procedure.

To remove the Air Filter from seven and eight cubic-foot models, merely remove the vegetable and fruit drawers with their covers. The Air Filter is part of the support for the drawers. *Be sure to remove the rubber foot from the support before placing in the oven.* The Air Filters in the twelve and sixteen cubic-foot models are removed by lifting them about one inch which detaches them from their supports.

Every year or so it is advisable to change the contents of the Air Filter. To accomplish this, remove the top screw at the rear of the Air Filter in deluxe seven and eight cubic foot models. The cover upon which the name appears may then be removed and the new activated carbon may be poured

into the chamber after the old carbon is poured out. In twelve and sixteen cubic foot models merely remove the cap from one end of each of the Air Filters, empty the contents and replace with new, activated carbon. Activated carbon is available from your G-E dealer at a nominal price.

WHEN YOU GO AWAY FOR A WEEK OR MORE

When you are not going to use your refrigerator for a week or more: (1) turn it off by pulling out the connecting cord; (2) remove all food; (3) clean the interior thoroughly; and (4) *leave the refrigerator door open.* If the door is left closed for a long time a stale odor may develop in the cabinet. For short trips away from home, it is not necessary to do anything as the food in the refrigerator will be adequately protected while you are away.

ADDITIONAL EQUIPMENT

Unless your refrigerator is a deluxe model, you have probably noticed references in the preceding pages to certain equipment which your refrigerator does not have. After you have used your refrigerator a short time, you may feel that you would like to have some of these added features.

Certain equipment such as the dessert tray, cold storage compartment, dry storage drawer, beverage server, and other accessories are available for use on models with which they are not standard equipment. Your General Electric dealer will be glad to tell you just what accessories are available for your particular model and obtain them for you at a nominal price.

A WORD ABOUT GENERAL CARE

G-E refrigerators require little or no special care. Every hermetically sealed G-E refrigerator is charged with the proper amount of oil at the factory and need never again be oiled. The motor in General Electric hermetically sealed refrigerators is protected from overloading by a special automatic reset overload device.

Models BY-4, PB-12, and PB-16, have a finned-tube type of condenser in the base of the cabinet which should be cleaned thoroughly with a stiff brush or vacuum cleaner every May 1. In humid weather the Super-Freezer door may be noticeably wet because of moisture condensing from warm humid air striking the cold surface of the door. This moisture will drip into the defrosting tray. *SEE SPECIAL CARD OF INSTRUCTIONS FOR ALL DIRECT-CURRENT MODELS.*

HOW YOU CAN SAVE TIME AND MONEY WITH YOUR G-E REFRIGERATOR

Buy In Larger Quantities on Bargain Days

Your General Electric refrigerator is ready to work for you. Take advantage of this new servant and save time, labor and money.

You can save money. At various times during the year the prices of certain fruits and vegetables are lower if you buy them in quantities. For example, string beans at 15 cents a pound are often sold at two pounds for 25 cents; berries at 20 cents a box, two boxes for 35 cents, and so on.

Your G-E refrigerator, by preserving the extra supply at a low, even temperature, makes it possible for you to buy in large quantities and save money.

Leftover foods are valuable—don't waste them. With your G-E refrigerator no food need ever be wasted. Its constant temperature prevents spoilage and makes it safe to hold the food over for several days—long enough so that the family will not recognize Sunday's roast in the form of meat pie. When you stop and think, 5 cents a meal for 30 meals is \$1.50 saved by utilizing leftovers. So, save by using leftovers. Beginning on page 15 are many attractive dishes that are easily prepared with the aid of your refrigerator.

Preserve Leftover Foods for Future Meals

You can save time. You can save time with your G-E refrigerator if you follow this simple formula:

(1) Save tiresome trips to the market. Instead of shopping once every day or so, shop once a week—buy in quantities and store the extra food in your refrigerator.

(2) Prepare meals in advance. The foods you prepare in advance can be safely stored in your refrigerator. For example: (a) Make up salad dressings in larger quantities, put it in jars and store it in your refrigerator. (b) Mix up recipes for refrigerator rolls. The dough will keep for a week or more in your refrigerator. (c) Make up a supply of pastry—see page 14—wrap it in waxed paper and put in your refrigerator until you are ready to use it.

These are only a few of the ways you can save time with your G-E refrigerator by making fewer trips to market to buy food and also by preparing food in larger quantities and not so often.

The pages of recipes in this booklet are simple and economical—and they are planned for use with your General Electric refrigerator.

HELPFUL HINTS FOR NEW USERS

The suggestions and recipes on the following pages have been tested at the Home Service Kitchen of the General Electric Home Appliance Institute at Bridgeport, Conn.

If ice cream does not freeze, possibly (a) too much sugar has been used, or (b) tray has been placed on upper or removable shelf of Super-Freezer.

SUGGESTION: (a) Follow recipes recommended on following pages. Measure accurately and use $\frac{1}{4}$ cup sugar to 1 cup liquid. (b) Place tray on bottom of Super-Freezer after wetting the freezing surface and set control at coldest position.

If ice cream melts after part of it has been used, possibly tray is not making good contact with freezing surface when returned to the refrigerator or temperature is not cold enough.

SUGGESTION: Place tray on bottom of Super-Freezer after wetting surface and set control colder.

If commercial ice cream does not keep, possibly it is (a) being stored in the original carton, or (b) Super-Freezer is not cold enough.

SUGGESTION: (a) Remove ice cream from carton and place in tray, and after wetting freezing surface, place tray on bottom of Super-Freezer. (b) Set temperature control to colder position.

If ice cream is flaky or icy, possibly (a) recipe is incorrect or not accurately followed, or (b) ingredients have not been mixed properly.

SUGGESTION: (a) Follow recommended recipe (see following pages) accurately. (b) Best method of mixing is to first freeze the base of custard or other material to a mush after which egg whites, cream, or other ingredients should be added and then thoroughly whipped and returned for final freezing.

If ice cubes have odors or taste, possibly (a) Trays are not clean, (b) uncovered odoriferous foods have been stored in the refrigerator, or (c) caused by water supply.

SUGGESTION: (a) Wash trays frequently (with soap and warm water, not an abrasive substance) and not with boiling water, especially after defrosting. (b) All odoriferous foods should be covered carefully. Oiled silk zipper bags and caps which fit snugly over uncovered dishes are convenient to use.

If odors are present in the refrigerator cabinet, possibly the source is (a) the original paper bags or containers in which the food was received, or (b) odoriferous foods. A fresh food odor is normal.

SUGGESTION: (a) Never leave store foods in their original wrappings. These should be removed before placing the food in the refrigerator and (b) cover securely all odoriferous foods. Clean periodically with soda and water.

If lettuce or celery wilts, possibly (a) it was not washed thoroughly before storing, or (b) it has been stored without a cover.

SUGGESTION: (a) Wash the food thoroughly and drain. (b) Store in vegetable pan or a covered container.

If ground meat spoils, possibly it has been stored in a tightly covered container.

SUGGESTION: Remove the meat from its original wrapping and store in the Cold Storage Compartment or wrap lightly with wax paper and store in the glass chiller. To keep ground meat more than one day store in Super-Freezer.

THE COOK'S MAKE-UP BOX

AFTER SHOPPING

1. Clean and thoroughly wash all salad material, drain and store in covered vegetable pans.
2. Peel or scrape carrots, onions, potatoes, etc., enough for two or three meals. (Drop potatoes as you peel them, into a solution of vinegar or lemon water—4 tbsp. to 1 quart of water.) Allow to stand about 5 minutes, drain and store in vegetable pan.
3. Make aspic jelly and salad dressings and keep in jars.
4. Make a medium thick white sauce and keep in a tightly covered jar. It will be ready for soups, vegetables or escalloped dishes.
5. Prepare any green vegetable for cooking and store in covered pans. The thorough chilling makes for shorter cooking time and helps to retain the natural green color.
6. Shred cabbage, celery, carrots, etc., for crisp green salads. Store in covered containers or moistureproof bags.
7. Cook potatoes in the jacket and "hard cook" eggs, to be used during the week for salads, hot dishes, garnishes, etc.
8. Remove wrapping paper from meats, place in Cold Storage Compartment.
9. Make a custard base to be used for ice creams or dessert sauces, also a simple syrup to be used in sherbets or drinks.
10. Grate orange and lemon peel, grate onion and mince parsley. Cover tightly and store to be used later for seasoning.

BAKING HELPS

1. Mix a supply of biscuit mixture and store in the refrigerator until ready to use, then all you need to do is to add milk, roll out and bake.
2. Make a supply of pastry dough and wrap in waxed paper.
3. Mix refrigerator rolls—the dough will keep for a week's time or more. Bake as needed.
4. Mix dough for refrigerator cookies, roll in waxed paper. Bake as needed.
5. Mix cake batters, pour into greased cake tins. Cover securely with waxed paper or tinfoil, fasten with rubber band. Cake batter will keep for several days. Remove from the refrigerator 20 to 25 minutes before baking.

ADVANCE PREPARATIONS

1. Check the day's menu, prepare as many dishes as possible and store them in the refrigerator until ready to cook.
2. Mix meat loaves, croquettes, breaded chops, etc. Cover with waxed paper and store in the refrigerator until ready to be cooked.
3. Make sandwiches for parties and store in vegetable pan, or arrange on tray—cover with a damp cloth, or store in an oil silk bag, and place in cabinet.
4. Prepare complete meals, meat, vegetable, salad and dessert. Cover and store in refrigerator until ready to be cooked.
5. Shape yeast rolls and place in pan, allow to raise partially, then cover with waxed paper and store until ready to cook.
6. Prepare salads and cocktails in advance, storing them in the Cold Storage Compartment or glass chiller tray directly below the Super-Freezer.
7. To crisp celery in a hurry, separate stalks of celery, wash thoroughly and place in bowl, cover with water and ice cubes. Add one peeled and sliced white potato, and store in refrigerator an hour or two. Celery will be nice and crisp.

DECORATED CUBES

1. Fill the tray half full of water and place in Super-Freezer. When partially frozen, place a maraschino cherry in each cube compartment, and then fill the remainder of the tray with water and freeze. Use either red or green minted cherries.
2. Mint leaves and red cherries frozen in tray make an attractive cube for lemonade.
3. Lemon cut $\frac{1}{4}$ -inch thick and sliced in quarters, frozen in cube, makes a very unusual cube for orangeade.
4. Put in each compartment of tray 1 or 2 mint leaves, a small flower and a cherry. Freeze—following method in suggestion No. 1.

FLAVORED CUBES

1. Freeze ginger ale in ice cube tray.
2. Freeze $\frac{1}{2}$ part ginger ale and $\frac{1}{2}$ part loganberry juice in ice cube tray.
3. Freeze 1 cup strong tea with $\frac{1}{2}$ cup lemon juice and 1 cup water in ice cube tray. (This should be used to ice tea as the flavor of the cubes will greatly improve the flavor of the tea.)
4. Freeze 1 cup coffee and 2 cups of water in ice cube tray. (Use this for iced coffee.)

Recipes—BEVERAGES

SUGAR SYRUP

DIRECTIONS

INGREDIENTS

Stir until dissolved. $\left\{ \begin{array}{l} 3 \text{ cups sugar} \\ 1\frac{1}{2} \text{ cups water} \end{array} \right.$
Bring to boiling point and boil for 10 minutes. Cool. Pour into covered jar and keep in refrigerator, using as needed.

CHOCOLATE SYRUP

Cook together, stir- $\left\{ \begin{array}{l} \frac{1}{2} \text{ cup cocoa} \\ 1 \text{ cup water} \end{array} \right.$
ring until smooth.
Add $\left\{ \begin{array}{l} 2 \text{ cups sugar} \\ \frac{1}{8} \text{ tsp. salt} \end{array} \right.$
Continue stirring until dissolved. Boil 3 minutes.
Add 2 tsp. vanilla
Pour into a jar. Seal and cover, keep in refrigerator until ready to use.

FRUIT NECTAR

DIRECTIONS

INGREDIENTS

Mix $\left\{ \begin{array}{l} \text{Juice 4 lemons} \\ \text{Juice 2 oranges} \\ 1 \text{ cup grapefruit juice} \\ 1 \text{ cup pineapple juice} \\ 1 \text{ cup red raspberry juice} \end{array} \right.$
Add 1 cup simple syrup
Chill. When ready to serve place in the punch bowl.
Add to the chilled nectar 3 cups chilled water
Pour over ice block.
Float sugared mint leaves over the nectar.
Serve in tall frosted glasses.

FRUIT PUNCH

Make according to above recipe. . . Sugar syrup
When this is cool add $\left\{ \begin{array}{l} 1 \text{ qt. grape juice} \\ 1 \text{ pt. ginger ale} \\ \text{Juice of 6 oranges} \\ \text{Juice of 6 lemons} \\ 1 \text{ pt. grated pineapple} \\ 1 \text{ pt. tea (optional)} \end{array} \right.$
Let stand one hour.
Add 2 qt. chilled water
Serve with Chipped ice
Serves 25.
(If tea is used the punch will have a dark color.)

ICE FLOAT FOR PUNCH BOWL

Soak $\left\{ \begin{array}{l} 2 \text{ tbsp. gelatin in } \frac{1}{4} \\ \text{cup water} \end{array} \right.$
Dissolve gelatin on low heat. Pour gelatin into bottom of pudding pan.
Arrange in $1\frac{1}{2}$ qt. pan to cover bottom. . . $\left\{ \begin{array}{l} \text{Pears} \\ \text{Peaches} \\ \text{Green grapes} \\ \text{Cherries} \\ \text{Mint leaves} \end{array} \right.$
Place in Refrigerator to set. Mix. . . $\left\{ \begin{array}{l} 2 \text{ cups pineapple juice} \\ 2 \text{ cups pear or peach juice} \end{array} \right.$
Add enough water to fill pan. Pour over fruit and place in Super-Freezer for several hours. Remove from pan. Pull off gelatin over fruit. Serve in punch bowl.

PINEAPPLE RASPBERRYADE

Mix together. . . $\left\{ \begin{array}{l} 1 \text{ cup water} \\ 1 \text{ cup canned crushed pineapple} \\ 1 \text{ cup canned raspberry juice} \\ \text{Juice of 1 lemon} \end{array} \right.$
Keep in refrigerator until ready to serve.
Serve in tall glasses with $\left\{ \begin{array}{l} \text{Ginger ale cubes and} \\ \text{fresh mint leaves} \end{array} \right.$

Recipes—FROZEN DESSERTS

VANILLA ICE CREAM

DIRECTIONS

Soak 5 minutes. { 1 tbsp. gelatin
1/4 cup cold water
Boil to thick syrup. { 1 cup sugar
1/2 cup water
Add gelatin mixture to syrup—allow mixture to cool.
Beat. 4 eggs
Add to syrup mixture—beat thoroughly.
Add. 2 cups milk
Place mixture in ice cube tray, place in Super-Freezer—freeze until mushy consistency.
Whip. { 1 1/2 cups cream
2 tsp. vanilla
Add to above mixture, return to Super-Freezer to continue freezing.

CHOCOLATE ICE CREAM

Melt. { 1 1/2 squares unsweetened chocolate
2 cups scalded milk
Add. { 1 tsp. cornstarch
2/3 cup sugar
1/8 tsp. salt
Add to chocolate mixture and cook until thickened, stirring constantly. Cool.
Pour in ice cube trays and place in Super-Freezer. Freeze to a mushy consistency. Remove.
Add. { 1 cup cream, whipped
1 1/2 tsp. vanilla
Return to Super-Freezer—continue freezing.

FRESH PEACH ICE CREAM

Mash thoroughly. { 2 cups fresh peach pulp
Add. { 3/4 cup sugar
Juice 1 lemon
When thoroughly mixed, pour into ice cube tray, place in Super-Freezer. Freeze to a mushy consistency.
Beat. { 2 egg whites
2 tbsp. sugar
Add. { 2 egg yolks, well beaten
Whip. 1 cup cream
Combine carefully whipped cream and egg mixture.
Add frozen peach pulp; return to Super-Freezer to continue freezing.

CHOCOLATE CANDY ICE CREAM

DIRECTIONS

Mix. { 3/4 cup prepared chocolate syrup
2 tsp. confectioners sugar
1 tsp. vanilla
Pour in ice cube tray, and cool thoroughly.
Whip. 2 cups cream
Add to Chocolate mixture.
Break into small pieces. { 1 bar chocolate nut candy
Fold into above mixture; return tray to Super-Freezer—continue freezing.

CARAMEL ICE CREAM

Scald. 2 cups milk
Caramelize. { 1/4 cup sugar
(To sugar, put sugar into a heavy saucepan, turn unit to LOW heat; stir constantly until sugar is melted and brown in color.)
Add to milk, stirring constantly.
Add. { 1 tbsp. cornstarch
1/2 tsp. salt
2 tbsp. cold milk
Stir mixture until thickened. Cool.
Pour into ice cube tray. Place in Super-Freezer. Freeze until a mushy consistency.
Whip. { 1 cup cream
1 1/2 tsp. vanilla
Add to caramel mixture. Return to Super-Freezer and continue freezing.

PUMPKIN ICE CREAM

Beat slightly. 1 egg yolk
1 cup cooked pumpkin (strained)
1/2 cup milk
3/4 cup sugar
2 tsp. vanilla
1/4 tsp. cinnamon
1/4 tsp. clove
1/8 tsp. salt
Stir at intervals while beating until dry. 1 egg white
Add to make meringue. 1 tbsp. sugar
Chill until nearly frozen. 1 cup coffee cream
Beat cream until thick as custard. Add egg white and cream to pumpkin mixture, blend.
Pour into dessert tray and freeze without stirring.

Recipes—FROZEN DESSERTS

BUTTERSCOTCH PARFAIT

DIRECTIONS

Melt together. { 3/8 cup brown sugar
2 tbsp. butter
Stir until butter is melted—cool for 1 minute.
Add. 1/2 cup water
Cook until butterscotch is smooth and syrupy.
Beat. 4 egg yolks
Add butterscotch syrup, continue beating.
Cook on LOW heat until light and fluffy.
Chill.
Whip. { 1 cup cream
2 tsp. vanilla
1/8 tsp. salt
Fold into above mixture and pour into ice cube tray. Place in Super-Freezer to freeze.

YELLOW PARFAIT

Boil together for 5 minutes. { 1/2 cup sugar
1/4 cup water
Beat. { 4 egg yolks
1/8 tsp. salt
Pour syrup over egg yolks. Cook over LOW heat until mixture coats a spoon. Cool.
Whip. { 1 1/2 cups cream
1 1/2 tsp. vanilla
Fold into syrup mixture. Pour into ice cube trays and place in Super-Freezer. Freeze until of proper consistency to serve.
Variation: CAFE PARFAIT
Follow recipe for Yellow Parfait, substituting one-third cup strong coffee for the one-fourth cup water, and increasing sugar to three-fourths cup.

ANGEL PARFAIT EN SURPRISE

Stir together until sugar is melted. { 1/2 cup sugar
4 tbsp. water
Boil without stirring until syrup spins a thread.
Whip. 2 egg whites
Add syrup slowly to egg whites beating until mixture is cool. Chill.
Whip. { 1 cup cream
1 1/2 tsp. vanilla
Fold into egg white mixture. Pour into paper parfait cups.
Into center of each cup put. { Chopped candied fruit, preserved ginger, cherries
Place in Super-Freezer—continue freezing.

RED RASPBERRY SHERBET

DIRECTIONS

Cook together 5 minutes. { 1 cup sugar
2 cups water
Add. { 1 pkg. raspberry prepared gelatin
Dissolve thoroughly and cool until mixture begins to thicken.
Wash and drain and put through a sieve. { 1 qt. red raspberries or 1 can red raspberries
Add. { Juice—1 lemon, 1/2 orange
Pour into ice cube tray, place in Super-Freezer 1 1/2 hours. Remove mixture to chilled bowl and beat 2 minutes. Return to tray and freeze until firm.

LIME SHERBET

Soak. { 1 tbsp. gelatin
2 tbsp. water
Boil together 10 minutes. { 3/4 cup sugar
1 1/2 cups water
Dissolve soaked gelatin in the hot syrup and cool.
Add. { 1/4 cup fresh lime juice
2/3 cup orange juice
2 tbsp. lemon juice
1/8 tsp. green coloring
1/8 tsp. salt
Pour mixture into ice cube tray, place in Super-Freezer; freeze to a mush. Remove to a bowl, add 2 unbeaten egg whites, whip together until light and fluffy.
Return to Super-Freezer until frozen solidly.

GRAPE JUICE SHERBET

Soak together about 5 minutes. { 1 tsp. gelatin
1/2 cup cold water
Add to syrup made by boiling together 10 minutes. { 1 cup sugar
4 tbsp. lemon juice
2 cups grape juice
1/2 cup orange juice
Freeze in two large freezing trays.
Remove and add. { 4 egg whites, unbeaten
1/4 tsp. salt
Whip and return to trays and freeze until firm. Makes 2 quarts.

Recipes—FROZEN DESSERTS

CRANBERRY SHERBET

DIRECTIONS
Cook together 10 minutes.
Add.
Run through sieve and cool.
Partially freeze in ice cube tray.
Add.
Beat one minute.
Return to Super-Freezer and freeze until firm.
Serve in orange shells.

INGREDIENTS
4 cups cranberries
1 cup boiling water
2 cups sugar
1/2 cup orange juice
1/8 tsp. salt
2 egg whites

BUTTERMILK SHERBET

Combine thoroughly.
Freeze to a mush in Super-Freezer.
Remove to chilled bowl and add.
Beat until light and fluffy.
Return to Super-Freezer and continue freezing until firm.

INGREDIENTS
2 cups buttermilk
1/2 cup sugar
1 cup crushed pineapple
1 unbeaten egg white
1 1/2 tsp. vanilla

GRAPEFRUIT CREAM SHERBET

Soak together.
Dissolve in.
Add.
Dissolve thoroughly and chill.
Add.
Pour chilled mixture slowly into.
Pour into ice cube tray, freeze to a mush in Super-Freezer; remove and place in bowl, whip thoroughly; return to Super-Freezer and freeze until solid.

INGREDIENTS
1 tbsp. gelatin
2 tbsp. cold water
1 No. 2 can grapefruit juice, boiling
1 1/2 cups sugar
3 tbsp. lemon juice
1 well-beaten egg
1 cup thin cream

MAPLE FRANGO

Mix together.
Beat.
Pour syrup mixture over egg yolks beating constantly. Cook over LOW heat 30 minutes beating constantly. Cool.
Whip.
Fold into egg mixture.
Whip.
Fold into mixture. Pour into ice cube trays. Place in Super-Freezer. Freeze until right consistency to serve.

INGREDIENTS
3/4 cup maple syrup
scalded
1/8 tsp. salt
1 tsp. powdered sugar
3 egg yolks
1 1/2 cups cream

VANILLA MOUSSE

DIRECTIONS
Soak.
Heat.
Add soaked gelatin.
Add.
Cool mixture, turn into ice cube tray, place in Super-Freezer until mushy consistency. Remove to bowl and beat until frothy.
Whip.
Fold into above mixture; return to tray, place in Super-Freezer, continue freezing.
Variations: PEPPERMINT MOUSSE
Use one-half cup finely crushed cream mint candies, or peppermint sticks, instead of the sugar. Tint a delicate green, serve with chocolate sauce.

INGREDIENTS
1 tsp. gelatin
2 tbsp. cold water
1 cup milk
1/2 cup sugar
1/8 tsp. salt
1 cup cream
2 tsp. vanilla

VANILLA MOUSSE No. 2

Beat.
Gradually beat in.
Add.
Pour into tray, place in Super-Freezer and freeze without stirring.

INGREDIENTS
1 1/2 cups cream
6 tbsp. sugar (granulated or powdered)
1/8 tsp. salt
1 1/2 tsp. vanilla

STRAWBERRY BAVARIAN CREAM

Soak.
Dissolve in.
Cool. Add.
Chill in refrigerator cabinet, stirring occasionally.
When mixture begins to thicken—
fold in.
Turn into a mold which has been dipped in cold water.
Return to refrigerator until firm.
Unmold and garnish with.
Whole strawberries, crushed strawberries, or whipped cream

INGREDIENTS
2 tbsp. gelatin
1/4 cup cold water
1/2 cup boiling fruit juice
1 1/2 cups fresh strawberries and 1/2 cup sugar, or 1 1/2 cups canned berries, drained of their juice—(no extra sugar needed with canned fruit)
1 1/2 cups cream, whipped stiff

LEMON CREAM SHERBET

DIRECTIONS
In.
Dissolve.
When thoroughly dissolved—
Add.
Stir while adding lemon juice.
Turn into tray and freeze until firm.
Beat.
Add.
Whip to a thick consistency.
Combine with the beaten egg whites.
Add frozen mixture and mix lightly.
Return to trays and freeze.
Requires no stirring.
Serve garnished with sprig of mint.

INGREDIENTS
1 pint milk
1 cup sugar
Grated rind of 1 lemon
Juice of 2 lemons
2 egg whites
2 tbsp. sugar
1/2 pint cream

NELA ICE CREAM

Beat.
Continue to beat and add.
Add.
Continue beating for 5 minutes.
Add.
Whip until thick (but not stiff).
Beat in the egg mixture.
Freeze without stirring.

INGREDIENTS
2 egg whites
1/4 cup sugar
2 tbsp. corn syrup
2 egg yolks
1/2 tsp. salt
1 tsp. vanilla
1 pt. 25% cream

CREAMY VANILLA ICE CREAM

DIRECTIONS
Put in mixing bowl.
Add.
Put into dessert tray and freeze to mush. Put in chilled mixer bowl and beat quickly till double in bulk. Return to dessert tray and freeze to ice cream consistency.

INGREDIENTS
1 can Ten B Low ice cream
1 1/2 cups milk
1 tsp. vanilla

FROZEN APPLE FLOAT

Grate.
Beat.
Beat into egg whites.
Fold in grated apples and place in freezing tray to freeze.
If desired, also fold in.

INGREDIENTS
6 apples
2 egg whites
1/2 cup sugar
1/8 tsp. salt
1/4 tsp. nutmeg
1 cup cream, whipped

FROZEN GRAPE STICKS

Mix.
With.
Pour into a quick ice cube tray with insert.
Freeze to a thick mush, then insert a stick in each cube. Freeze.

INGREDIENTS
1 pint bottle grape juice
1 cup water

SALADS

PEACH AND RASPBERRY SALAD

Dissolve.
In.
Cool slightly.
Arrange in bottom of mold.
Pour half of gelatin over peaches and place in refrigerator to congeal.
Pour over peaches.
Pour remaining gelatin over.
Congeal in refrigerator.
Serve on lettuce with mayonnaise and whipped cream.

INGREDIENTS
2 pkgs. raspberry gelatin
2 pints hot water
1 No. 2 1/2 can sliced peaches
1 can red raspberries or 1 box frosted raspberries

FROZEN CORN SALAD

Scald.
Add.
Cook on Position No. 3 (Purple) until thick (about 15 minutes). Stir constantly. Cool.
Add.
Fold in.
Pour in freezing tray and garnish on top with chopped almonds and paprika. Freeze solid and cut in squares to serve.
Serve with mayonnaise.
NOTE: If whole kernel corn is used, grate or finely chop the corn. If cream corn is used, this is not necessary.

INGREDIENTS
1 1/2 cups thin cream
2 beaten eggs
1 tsp. sugar
1/2 tsp. salt
1/2 tsp. paprika
1/2 cup salted almonds (chopped)
1 1/2 cups corn

Recipes—SALADS

MOLDED PICKLE AND VEGETABLE SALAD

DIRECTIONS	INGREDIENTS
Dissolve.....	1 pkg. lemon jello in 1 pint hot water
In bottom of mold, place.....	$\frac{1}{2}$ cup chopped sweet pickle
Next layer.....	1 $\frac{1}{2}$ cups shredded carrots
Last layer.....	1 $\frac{1}{2}$ cups shredded cabbage
Pour cooled jello mixture over vegetables, being careful not to mix the ingredients. When cool, place in refrigerator. Let stand until firm.	
Unmold on crisp lettuce.	
Garnish with.....	Fresh tomato sections
Serve with.....	Mayonnaise dressing

FROZEN CHEESE AND DATE SALAD

Cream until very soft.....	2-3-oz. pkgs. cream cheese
Add.....	$\frac{1}{4}$ cup maple syrup
Fold in.....	1 cup cream, whipped
	$\frac{1}{2}$ cup chopped dates
Add.....	1 $\frac{1}{2}$ cups diced bananas or pineapple
	$\frac{1}{2}$ cup nutmeats
Place in refrigerator for several hours to freeze.	
This can be served on lettuce leaves as a salad or as a dessert.	

FROZEN PISTACHIO CHEESE SALAD

Mix together until creamy.....	3 pkg. cream cheese 2 oz. Roquefort cheese
Fold into.....	$\frac{1}{4}$ cup cream, whipped
	1 tbsp. lemon juice
Add.....	$\frac{1}{2}$ cup pistachio nuts
	$\frac{1}{2}$ tsp. salt
Pack tightly into.....	2 green peppers
Place in Super-Freezer to freeze.	
Slice and serve on lettuce with French dressing.	

24-HOUR SALAD

DIRECTIONS	INGREDIENTS
To.....	2 eggs, beaten (in saucepan)
Add.....	4 tbsp. vinegar 4 tbsp. sugar
Heat and beat constantly until thick and smooth.	
Add.....	2 tbsp. butter
Cool. When cold—	
	1 cup cream, whipped
	2 cups white cherries, cut in halves
	2 cups pineapple, cut in pieces
	2 oranges, cut in pieces
	2 cups marshmallows, cut in quarters
	1 cup blanched almonds, shredded
	Emrelettes and Rubettes
Top with.....	
Chill in fancy ring mold in refrigerator cabinet 24 hours.	
(This makes a delicious party salad and serves 12-14).	

MOLDED CHICKEN SALAD

Soak.....	1 tbsp. gelatin $\frac{1}{4}$ cup cold water
Dissolve over boiling water.	
Add to.....	1 cup mayonnaise or cooked salad dressing
	$\frac{1}{2}$ cup chopped celery
	2 cups cooked chicken (cut in small pieces)
	$\frac{1}{4}$ cup cooked pimiento
	More dressing if necessary
Turn into large or individual molds and chill in refrigerator cabinet.	
Unmold on crisp lettuce.	
Garnish with.....	Fan pickles, stuffed olives or radish roses

SUNSHINE SALAD WITH STUFFED PEARS

DIRECTIONS	INGREDIENTS
Pour.....	2 cups boiling water
Over.....	2 pkgs. lemon jello
Add.....	1 cup pineapple juice
	1 cup grated carrots
Add.....	2 cups crushed pineapple
Pour into a mold and place in refrigerator to congeal.	
Turn out on lettuce or endive and garnish with.....	
	Pear halves
Decorate pears with.....	Colored cream cheese flowers
Serve with mayonnaise.	

WHOLE MEAL SALAD IN GREEN PEPPER CASES

DIRECTIONS	INGREDIENTS
	1 can chicken (2 cups)
	1 small can corn, No. 1 $\frac{1}{2}$
	1 small onion—diced
	1 can kidney beans
	drained
	$\frac{1}{2}$ tsp. salt
Mix together.....	1 red apple—not peeled but diced
	2 hard cooked eggs
	$\frac{1}{2}$ cup chopped celery
	Juice of $\frac{1}{2}$ lemon
	$\frac{1}{2}$ cup whipping cream
	$\frac{1}{2}$ cup mayonnaise
Serve in green pepper case on lettuce.	

MISCELLANEOUS

MILK SHAKE

Mix.....	1 cup milk Sugar syrup to sweeten
	2 tsp. flavoring
Crush.....	Ice cubes
Place in shaker, add milk and shake until frothy. Serve in tall glasses	
With.....	Dash of nutmeg or whipped cream

CHOCOLATE MILK SHAKE

Omit.....	Sugar syrup
	2 tbsp. chocolate syrup
Add.....	1 tbsp. vanilla or chocolate ice cream

MALTED MILK SHAKE

Add.....	1 tbsp. malted milk powder
----------	----------------------------

REFRIGERATOR ROLLS

Scald.....	1 cup milk
Dissolve.....	1 yeast cake
	1 tsp. sugar
In.....	$\frac{1}{4}$ cup scalded milk
cooled to lukewarm temperature.	
To remaining $\frac{3}{4}$ cup milk add.....	1 tsp. salt
	5 tbsp. lard
Combine mixture and add about.....	
	4 cups flour
beating in electric mixer.	
If dough is to be used immediately, turn out on floured board and knead, adding necessary flour. Then form into rolls and allow to double in bulk. Bake at 425° for 15 minutes.	
If dough is to be stored in refrigerator, cover with waxed paper after adding first four cups of flour and store.	

FRESH LIME REFRIGERATOR PIE

Sprinkle.....	1 $\frac{1}{2}$ tsp. gelatin
In.....	$\frac{1}{2}$ cup cold water, to soften
	4 egg yolks, well beaten
Combine.....	$\frac{1}{2}$ cup sugar
	$\frac{1}{2}$ cup fresh lime juice
Mix thoroughly and cook until thick and creamy, beating constantly with beater. Remove from unit. Stir in softened gelatin.	
Beat.....	4 egg whites, until stiff
Gradually add.....	$\frac{1}{4}$ cup sugar
Beat until smooth. Pour the slightly cooled mixture into the beaten egg whites. Mix well and pour into a baked pie shell. Place in refrigerator until firm. If desired, cover with whipped cream.	
Serves six.	

ANGEL STRAWBERRY BOMBE

Cut the entire top from 1 angel food cake	
Lift off top layer—remove the center of the bottom layer, leaving one inch of cake at the outer edge, one inch at center hole, and one inch at the bottom, thus forming a ring mold.	
At serving time fill the hollowed out cake with.....	Strawberry ice cream
Replace top of cake and frost all over with sweetened whipped cream. Serve on a platter with strawberries heaped around the base of the cake, and a few on top as a garnish.	

Recipes—MISCELLANEOUS

TOMATO ASPIC

DIRECTIONS	INGREDIENTS
Soak.....	2 tbsp. gelatin 1/4 cup cold water
Dissolve in.....	1/2 cup boiling water
Add to.....	4 tomatoes, fresh or canned 1 tsp. chopped onion 1/2 tsp. celery seed 2-3 whole cloves Salt and sugar to taste

Which has been cooked 15 minutes and strained through fine strainer or cheese-cloth.

Add..... 2 tbsp. lemon juice
This may be molded at once, or it may be kept in covered jar in refrigerator cabinet until needed.

Makes about three cups aspic.

To use, take out what is needed and melt over hot water.

Use for various salads such as celery and cucumber, vegetable, etc.

CHARTREUSE OF MEAT AND RICE

Season.....	2 cups chopped cooked meat
With.....	1 tsp. salt 1/4 tsp. pepper
Mix with.....	3/4 cup fine soft bread crumbs
Add.....	Enough stock to make it pack easily
Line a thoroughly buttered mold with.....	3 cups cooked rice
Fill with meat mixture and cover with.....	1 cup cooked rice
Cover tightly and bake at 350° F., for one hour.	
Serve with.....	Tomato sauce

(The preparation may be done ahead and the covered mold kept in the refrigerator until time to bake.)

CHEESE STRATA

DIRECTIONS	INGREDIENTS
Temperature 350° F. Time: 45-50 Minutes Serves 6	
Trim crust from.....	12 slices of bread
Arrange 6 slices in bottom of buttered baking dish.	
Slice.....	1/4 lb. American cheese
Place on bread.	
Cover with remaining bread.	
Beat slightly.....	4 eggs

Add..... 2 1/2 cups milk
2/3 tsp. salt
1/2 tsp. pepper
Paprika

Pour milk mixture over bread.
Cover and keep in the refrigerator cabinet until ready to bake.
Bake, and serve at once.
The bread should puff up and brown.
The thorough chilling makes the "Strata" puff like a Souffle.

SURPRISE LOAF

Remove crust from.....	1 loaf sandwich bread
Slice lengthwise in thirds.	
Spread one slice of bread with.....	Mayonnaise
	1 1/4 cups chopped raw cabbage
	1/2 cup shredded lettuce
Then with.....	1 pimiento, chopped
	Mayonnaise enough to moisten
Cover with second slice of bread spread with mayonnaise and.....	2 cups cheese relish
Mash.....	1/4 pound cream cheese
Press through sieve or grate.....	1/2 lb. yellow or snappy cheese
Mix with.....	Enough thin cream to make a soft spreading consistency
Season with.....	Salt Pepper Paprika

Spread on outside of loaf.
Store in refrigerator until well chilled.

Recipes—GARNISHES

WATER LILY

1. Hard cook the number of eggs needed. When cold, cut the egg white in 6 or 8 equal size petals lengthwise of the egg. Do not cut all the way down. Carefully pull back the petals and remove the yolk. Close the petals and place in refrigerator.
2. Mash the egg yolks, adding mayonnaise or cream, salt, pepper, mustard to season.
3. When ready to serve, set the egg on a bed of shredded lettuce, open petals to represent a lily, and form the center with egg yolk mixture (using a pastry tube). Sprinkle with paprika.

LUNCHEON BUTTERS

1. Use a sharp paring knife with a rounded end. Draw knife across butter lightly, until there is as much on the knife as it will hold.
2. Remove and form into a flower. If butter is too cold it will come off too thin. If butter is too warm, it will be too thick.
3. Place flower on pat of butter.
4. Place a piece of parsley stem vertical on one side of flower.
5. Place a bit of cherry, carrot or pimiento in center.
6. To add more color, touch edges with paprika.

TOMATO FLOWER

1. Select a firm, ripe, medium sized tomato. With a very sharp knife divide the tomato into five equal petals. Carefully peel the petals down to stem end, being careful not to break.
2. When all petals are completed, open to resemble a flower.
3. Sprinkle with sieved egg yolk or cheese.
4. Use as a garnish or an individual salad.

TOMATO ROSE

1. Select a medium size tomato. Hold the tomato with the left hand and with a very sharp knife pare the tomato, peeling in the same way as paring an apple, being careful not to break the paring. Remove paring entirely, including the stem end.
2. With the first end, carefully wind the paring, skin side out, snugly together to resemble a rose. When the stem end is reached, let the rose rest on the stem end, furnishing a base for the rose. Make a center of carrot strips or egg yolk.
3. Use to garnish salads, meats or a sandwich tray.

OLIVE FLOWER

1. Cut a ripe olive into four or five petals. Remove stone. Fill center with cream cheese or mayonnaise.

CELERY TRUNKS

1. Take two matching pieces of curled celery and fill the cavities with any filling used for stuffed celery.
2. Press the two stalks together and stand upright to resemble trunks of trees.

YOUR ASSURANCE OF GENERAL ELECTRIC QUALITY

So that you may better appreciate the extraordinary precautions which the manufacturer of your General Electric refrigerator exercises to insure your receiving an article of highest quality and precision workmanship, the following are a few of the tests to which parts of General Electric refrigerators have been subjected.

Measurements and fittings of the compressor are limited to variations of .0003 of an inch and are checked on electric gauges possible of indicating variations of .00001 of an inch.

The metal glass leads by which power is introduced through the hermetic seal into the motor are tested for electrical insulation at voltages almost twenty times that at which the mechanism usually operates.

Completed mechanisms are given a two-and-one-half hour final running test in storage during which their operation is checked under heavy load conditions and variations of electric voltages.

Pumping efficiency of the compressor unit is checked by its satisfactory operation against 100 pounds of air pressure.

Completed units are submerged in water and subjected to 200 pounds pressure to check for possible leakage of the refrigerant before shipping.

Three separate and distinct tests at various stages of assembly in soundproof rooms are made for noise.

As a check against possible rupture, condensers have been subjected to hydraulic pressure more than 1,000 pounds per square inch.

Samples of materials used in the cabinet construction are stored in containers with lumps of fresh butter after which the butter is tested by taste and smell as a check against the materials giving off odors.

Rigid tests on rust resistance, grease resistance, flexibility, abrasion, and color retention are made under most abusive conditions to indicate the durability of the exterior surface of the cabinet.

To test the durability of hardware and door operation, doors have been subjected to over 300,000 door openings and slammings, after which the efficiency was still unimpaired. This is the equivalent of some thirty or forty years of actual usage in the home.

Shelves carrying a weight of 20 pounds have been slid in and out more than 50,000 times and still operated satisfactorily at the conclusion of this test.

Durability of the shelf finish is tested by exposure to salt spray and high humidity conditions for long periods of time.

THE FIRST STEP

To thousands of families all over the country the purchase of a General Electric Refrigerator has been the first step toward a complete G-E Electric Kitchen.

Often the purchase of a refrigerator is followed by the installation of a G-E Range with its clean, cool, controlled cookery. Next might come the G-E Electric Sink which banishes forever the drudgery of hand dishwashing and eliminates the garbage can by shredding and flushing fresh food waste down the drain.

Then, too, there are steel wall cabinets with automatically flood-lighted interiors, drawers which glide quietly and easily, and a host of smaller electric servants which lighten many daily tasks. All of these matched appliances and cabinets combine into a beautiful ensemble to create a kitchen of carefree convenience.

We hope that it will not be long before you, too, can enjoy the economy and freedom which a General Electric Kitchen can give you.

APPLIANCE AND MERCHANDISE DEPT.,
GENERAL ELECTRIC COMPANY,
BRIDGEPORT, CONN.

TO KEEP YOUR G-& Refrigerator CABINET
Looking like new, use

GENERAL ELECTRIC LIQUID WAX

CAT. No. A20RI

Prepared especially for cleaning, waxing, and preserving the Glyptal-baked enamel exterior surfaces of

GENERAL ELECTRIC REFRIGERATORS.

Can also be used on any lacquer or varnish finish.

It cleans and waxes in one operation, protecting the cabinet surfaces from stains, acids, grease, salt air, moisture, and finger-prints.

It requires no hard rubbing; simply rub on—rub off. It cleans off the dirt, leaving a waxed surface that will not show finger prints or collect dust.

Order through your

GENERAL ELECTRIC REFRIGERATOR DEALER

GENERAL ELECTRIC

ONE YEAR WARRANTY

General Electric Company warrants to the purchaser of each new General Electric Hermetically Sealed Household Refrigerator that any part thereof which proves to be defective in material or workmanship within one year from the date of original purchase for use will be repaired or replaced. We neither assume nor authorize any person to assume for us any other obligation or liability in connection with said appliance.

Any defect in said appliance should be brought to the attention of the dealer from whom it was purchased who will be authorized to furnish or arrange for repairs or replacements within the terms of this warranty.

FOUR YEAR REPLACEMENT CONTRACT

(Additional to the One Year Warranty)

We agree with the original purchaser of each new General Electric Hermetically Sealed Household Refrigerator who pays \$5.00 for this agreement that should the hermetically sealed-in mechanism thereof become inoperative under normal use and service within four years next following the expiration of one year after date of original purchase for use, as a result of defects in material or workmanship, we will replace the same or, at our option, replace the Refrigerator with another of similar design and capacity. This obligation does not extend to the refrigerator cabinet, porcelain or other finishes, control, relay, or any other part of the said Refrigerator except the hermetically sealed-in mechanism thereof, nor does it include adjustments whereby the refrigerator is made to operate, it being distinctly understood that charges may be made for such adjustments.

This replacement agreement shall apply only within the boundaries of continental United States and Hawaii.

Ciudad Juarez, Chih.

Mayo 17 de 1941.

Sr(es) Gral. Plutarco Elias Calles.
Mexico, D.F.

Muy señor(es) mio(s) y amigo(s):

Adjunto me permito enviar a usted(es) Carta de Encargo para que a vuelta de correo se sirva(n) devolvermela debidamente firmada, de acuerdo con lo prevenido en el Artículo 79 del Reglamento, Título II de la Ley Aduanal vigente.

El citado ordenamiento me exige tener en mis archivos un documento que acredite el encargo para el manejo de mercancías, y como en el presente caso le he manejado algunas remesas y carezco en lo absoluto de algún documento donde usted(es) me de(n) su consentimiento para el despacho, y con el fin de evitar demoras a su mercancía, he hecho la reexpedición a reserva de que usted(es) se sirva(n) devolverme el documento adjunto, advirtiéndole(s) que si en lo sucesivo me veo favorecido con sus nuevos embarques, ya no habrá necesidad de firmar un nuevo documento, pues el adjunto servirá para todos sus embarques que haga(n) durante el año de 1941, asegurándole(s) que esta Carta de Encargo no obliga a usted(es) en manera alguna a ocupar mis servicios, pues se puede expedir a varios agentes aduanales a la vez.

Agradezco de antemano la atención que prestara(n) a mi suplica y me repito con el gusto de siempre de usted(es) afmo. atto. amigo y S. S.

MANUEL F. MORA

México.D.F. Mayo 3 de 1941.
Lugar y fecha

Sr. Manuel F. Mora,
Agente Aduanal,
C. Juárez, Chih.

Muy señor nuestro:

Dando cumplimiento a lo prevenido por el Artículo 79 del Título II del Reglamento de la Ley Aduanal vigente, por la presente manifestamos a Ud. que hemos decidido nos represente ante la Aduana Fronteriza de esa ciudad, en lo relativo a importación y exportación de nuestra mercancía, ya sea que estas lleguen a nuestra consignación o que sean remitidas por nosotros para ser exportadas al extranjero; haciendo ante dicha oficina las gestiones que sean necesarias para el despacho y retiro de dichas mercancías.

De Ud. afmos. y ss. gs.

AVISO DE SALIDA DE CARROS

México, D. F., 20 mayo 1941.

Sr. Fernando Torreblanca.

Guadalajara No. 104,

México, D. F.

Estimados señores:

Confirmamos nuestro aviso telefónico informándoles la salida de los siguientes carros para ustedes de Ciudad Juárez, el día 17 a las 16 horas 45 minutos:

SP-28524 con menaje de casa para el señor Gral. Plutarco Elías Calles. MUY AGRADECIDOS POR ESTE FLETE.

Tenemos el propósito de proporcionarles el más eficaz servicio. Una llamada telefónica pondrá un Agente de esta oficina a sus órdenes, el que se ocupará de localizar cualquier embarque, o bien de activar el movimiento de los carros que vengán a su consignación.

Podemos también facilitarles todo género de datos con relación a las cuotas de fletes aplicables, tanto en los Estados Unidos, como en México.

Comprueben ustedes la eficiencia de nuestra organización, dándonos la oportunidad de servirles.

Muy señor mio:

De acuerdo con su ultima nota de "AVISO DE GASTOS" fechada el 27 de mayo ppdo. y por instrucciones del Sr. Gral. Calles, remito a Ud. adjunto los dos cheques a que se refiere la misma: -- uno en dólares por concepto de fumigación # 790, por la suma de \$7.47 -siete dólares y 47/100- a cargo del Bank of America, San Diego, California, a su favor; y otro, # 719080, (por concepto de limpia), en moneda nacional, por la suma de \$5.86 - cinco pesos y 86/100- a cargo del Banco Mexicano, S. A., de esta ciudad, igualmente a su favor. Ambos cheques firmados por dicho Sr. Gral.

Sin otro particular, por ahora, me es grato repetirme de Ud. atto. S. S.

---
