I should like to know whether there might be

I have good command of several languages and  
can teach other musical subjects + English besides

Kindly let me know if I might qualify

Dear Miss Liss:

Answering your kind letter of June 2, I want to tell you that this Colegio de México is not a school but a research center on humanities, history and philosophy. When Mr. Adolfo Salazar (now in Europe) was in Mexico, we were glad to offer him the opportunity to give a series of free lectures on History of Music, but we never had a permanent program of studies on this subject.

Yours sincerely.
