President-Elect. Obergon  
Mexico City - Mexico.

My dear Sir,

What inducements  
can and will your government make to  
further building a refinery in Mexico and  
how much land will you give for drill-  
ing oil wells, to a man that knows how  
and has the tools also what inducements  
will you give to breeders of fine dairy  
cattle also to creameries cheese and condens-  
ed milk factories with cold storage attached  
Would there be any inducement to a large  
canning factory. Sales to real energetic farmers  
I expect to come down thru your country  
in a few weeks, and would like very much  
to see you and talk over possibilities

With best wishes,

W. S. Winsor
